EXT120 & EXT120-T Ultra Ozone Generators

Two Outstanding Ozone Generator choices from Longevity Resources

Custom Ozone Systems available. Please ask our Product Specialists for assistance.

EXT120 & EXT120-T Ultra Ozone Generators with NEOS™ Technology and Affordable Price

The EXT120 & EXT120-T "Ultra" Ozone Generator incorporate next generation NEOS™ Technology for newly enhanced digital precision and performance. Engineered and manufactured entirely in North America (not China!) and released early 2015 these NEOS™ driven "all digital" ozone generators have a proven track record for precision, quality, and reliability. Not surprisingly the EXT120 & EXT120-T "Ultra" have taken North America and the world by storm. With access to over 90 UltraPure precision ozone concentrations, including the now popular 'micro dosing' ozone levels (at less than 1 ug/ml) the EXT120 and EXT120-T "Ultra" will provide ozone for all ozone protocols from around the world.

GUARANTEED THE BEST AND MOST AFFORDABLE ON THE MARKET TODAY

- Proven the Purest Ozone in the world thanks to Longevity's 100% Quartz Glass Electrode – No Metal, Rubber, Plastics, ceramics, glues, resins or any other source of contaminants; just pure clean ozone.
- Abides by the ISCO3.org international "Glass Electrode" guidelines and all AAO (American Academy of Ozone) Ozone Generator Guidelines
- Over 90 Ozone Concentrations precise to +/- 1% accuracy (including micro dosing) means you can perform any and all protocols
- NEOS™ Technology: enhanced all digital ozone controls, timer, and power handling ensures you have the most modern technology
- Built in digital countdown timer for water, bagging, saunas etc.
- Proven high quality and reliability with QAI Approval: QAI (QAI - Quality Auditing Institute) has inspect and tested the EXT120 and "Ultra" in their laboratory trying to make it heat up, burn out, or catch fire & we passed all tests, *proving* you can place your confidence and trust in the EXT120.
- Longest Warranty in the Industry: Lifetime Warranty on the Glass Ozone Electrode and 5 Years Parts and Labor on all other components.
